

TOGETHER

Lyrics co Mia Sperber 2012

Kneeling in dark shadows,
In front of you I pray.
The mountain is so awesome
The sunlight is away.

My longing soul is soaring,
In torment and in bliss,
To touch you and come closer,
Your loving heart to kiss.

How long and harsh the exile,
We're close and yet so far.
Our hearts are set on fire,
Our lives a blazing star.

Stay here, do not leave me,
In darkness and despair.
Please bring your kind protection
The future to prepare.

And in the splendid twilight
That ends the frightful night,
Lastly we'll be together,

Never to be apart.
